MDCATEMY – Website Design Brief

Platform Purpose

To prepare FSc Pre-Medical students for MDCAT (Medical and Dental Entrance Test).

Future expansion into:

- NUMS MDCAT (the MDCAT conducted by National University of Medical Sciences for Army Medical Colleges)
- FSc Board Exams
- Matric Board Exams

Product

The prime selling product of the academy is “Study Tribe.”

It is a specialized system created for students to enhance their learning and also mainly focusing on their productivity, accountability, and most importantly their mindset.

It is the unique idea of MDCATemy which makes it different from all of its competitors.

All the other academies provide lectures, MCQs for practice, notes, etc., which are resources, but what MDCATemy has made is the Study Tribe.

Study Tribe System

A tribe of 100 students, divided into families of 5 inside the tribe. Each family is assigned to a Coach. We call him the Veteran, who has appeared in MDCAT and came back successful.

The coach oversees his family's whole MDCAT preparation journey and ensures everything is running smoothly. He ensures the family members complete their daily tasks assigned to them on their dashboard.

During admission, he along with a senior coach has a one-hour session with each Warrior (a term for our students), where they discuss his routine, his intelligence, method of study, family pressure, or other problems he is facing.

This is the diagnosis session, where we try to take as much information about the warrior as possible, and based on that, we curate a personalized plan for him.

Weekly Review System

We arrange weekly sessions where the whole week is recapped and studied to see whether the plan was effective or if it needs changing.

Accountability & Counseling

For accountability, the coach checks the profile activity of the warriors. He can also ask the warrior directly about the day via WhatsApp.

We also have counseling sessions for avoiding anxiety and depression among students.

Family System

The five family members are connected with each other and can see each other's online status. We also make a discussion group of only them to ensure group studies (not enforced if someone does not prefer that).

System Summary

In short, this system is the main differentiator of MDCATemy from the rest of the market.

Inside the Study Tribe

Inside the Study Tribe, we provide:

1. Lectures
2. PDF Notes
3. Flashcards
4. Training Ground (MCQs Practice Area)
5. Performance analytics including a score predictor (based on practice)
6. Calendar for routine and daily tasks
7. Mistakes Copy (storing all the wrong MCQs during practice)
8. Active recall and spaced repetition of topics through flashcards
9. Ace MDCAT Like a Warrior course
10. Weekly test sessions

Website Flow and Pages

---

1. Landing Page

Non-logged-in users should directly see this page when they visit mdcatemy.com. The landing page should try to introduce and sell the Study Tribe.

For inspiration, a PDF of Ali Abdaal's YouTuber Academy has been attached.
